

SAFETY, HEALTH, ENVIRONMENTAL AND QUALITY POLICY

THE Company, the Chief Executive Officers, Directors and Management are committed to ensure:

That we will provide our valued customers with the best possible Road Transport and Logistics service at a competitive price and ensure their satisfaction.

Operate, maintain and service a fleet of vehicles and associated equipment in compliance with all legal requirements in order to ensure customer requirements are met.

That all employees and contractors are adequately trained especially in Safety, Health, Environmental and Quality aspects. All employees are responsible for the health and safety of themselves and of other persons and are to report any situation that is unsafe or unhealthy. A culture of reporting actual or potential Non Conformances, Near Miss or Potential Incidents will be encouraged. These aspects need to become a way of life, in order to instill a culture of continual improvement and awareness.

Always be fair and honest to customers and fellow employees and to employ ethical business practices and ensure all sub-contractors comply with our Safety Health Environment and Quality Policy.

Safety, Health and Environmental Management is integrated into the business with the development of formal management practices including compliance with all applicable legal and other requirements to which the company subscribes, which relate to Occupational Health and Safety and it's Environmental aspects.

Protection of all environmental resources and the minimization of pollution. Risk assessments are to be conducted with regular monitoring and auditing.

Every Company employee shall protect the environment by:

- Conserving energy and resources through continuous improvement of facilities and resources.
- Reducing emissions, control of effluents and management of waste.
- Promoting the use of environmentally acceptable materials, products and services.

Monitoring and Measuring the SHEQ impacts covering all aspects of our business activities. This shall be achieved by compliance with the ISO 9001:2000 and ISO 14001:2004 and OHSAS 18001:2007 Management Systems. Annual objectives and targets are set for the continual improvement of the company's performance on SHEQ, action plans are in place and achievement is regularly reviewed by means of management reviews.

All employees and contractors shall be give a copy of this policy and the contents explained to them. It shall also be prominently displayed in all Company premises and will also be made available to the public if so required.

CHIEF EXECUTIVE OFFICER
